

ECO STOVE™

wraps your house in warmth

Dave,

Here are two readings from a mild day and a colder day. It will be interesting to see when it's properly cold!
I presume just a bit more fuel and the results will remain the same.

I have a full survey of the property old and new which we could use to develop into a proper case study with cubic volumes heated etc.

Since fitting we have not burnt any oil for the old main house and barn. (only the new extensions under floor heating). The hot water tank in the bathroom of the old house (in the figures) is solar panel heated so this will not be affecting the readings upstairs.

Good luck in Canada

Regards

George

Temp readings using Ecco Stove installed against a gable end of the main 3 storey house in a single storey barn conversion (Ground floor)
Office in barn adjacent to sitting room where the stove is located (Ground floor)
Reception room(Ground floor) Stairwell, bathroom and 3rd storey bedrooms in main house attached to barn

Outside temperature Mild 14 C						
Fuel	Time	Temp C Sitting Room (Ecco Stove)	Temp C Office	Temp C Stairwell	Temp C 3rd Storey Bedroom 1	Temp C 3rd Storey Bedroom 2
7Kg wood	8.30am	20	21	18.9	19.1	19
	10.30am	22.4	21.4	25	20.8	20.6
2 extra logs	12.30pm	22	21.9	25.1	21.3	21.2
	3.30pm	21.3	20.6	21.5	20.8	20.7
No fuel	8pm	22.7	21.9	24.5	22	21.9
